

BUSINESS ENABLERS L1- FOUNDATIONS

This learning path offers a practical journey for business professionals to harness artificial intelligence with confidence and strategic intent. Through foundational AI literacy, responsible use principles, and applied exercises across real business scenarios, learners develop the skills to enhance productivity, strengthen decision quality, and lead AI adoption in today's evolving workplace.

Completing Foundations marks the first milestone in the AI for Business Enablers pathway. Your commitment to building AI fluency reflects the kind of forward-thinking capability that Perficient champions across every engagement.
