WORK EXPERIENCE

Perficient, Pune, Maharashtra, India

Technical Consultant | July 2025 - Present

- Architected 3 enterprise React.js and Next.js (SSR/SSG) SPAs for Fortune 500 clients, integrating REST APIs, GraphQL, and OpenAI API to deliver AI-enhanced experiences, improving Core Web Vitals by 25%, reducing Time to Interactive from 5.2s to 2.8s, and strengthening client retention.
- Refactored 4 legacy TypeScript codebases applying SOLID principles, CI/CD pipelines, and GitHub Actions, reducing technical debt by 30%, cutting production bug rate by 22%, and saving 15+ engineering hours per sprint.
- Managed Agile delivery for a 6-member cross-functional team across 8 sprints using Jira, mentoring 3 junior developers through code reviews and pair programming, cutting onboarding time by 40% while running sprint planning, standups, and retrospectives to ship 12 WCAG 2.1 AA-compliant features with 100% on-time completion.
- Used Lighthouse and the web-vitals library to audit and monitor performance budgets across production releases, catching regressions and reducing post-launch support costs.

Harbinger Group (Harbinger System Pvt. Ltd.), Pune, Maharashtra, India

Software Engineer | January 2023 - October 2024

- Engineered 5 high-traffic React.js and Next.js (SSR/SSG) applications with TypeScript, Tailwind CSS, and REST API integration, improving performance by 20%, reducing page load times from 3.8s to 3.2s, and strengthening client retention across SaaS deployments.
- Built an 8-developer reusable component library (ShadCN, GraphQL, Redux) documented in Storybook, adopted across 3 teams, cutting development time by 30% and reducing code redundancy by 35%.
- Recognised as SuperStar of the Month 3 times in 22 months and won the company-wide Hackathon and Design Summit for outstanding contributions to product delivery and team collaboration.

MyClan Services Pvt. Ltd., Pune, Maharashtra, India

Software Engineer | August 2020 - December 2022

- Designed and shipped 10+ responsive, mobile-first, WCAG-accessible JavaScript and React.js interfaces with REST API integration, achieving a 25% improvement in usability scores and 20% increase in user retention; strengthened security across 6 applications, cutting critical vulnerabilities by 40% and raising uptime from 97.2% to 99.8%.
- Built React and React Native cross-platform PWA features for 2 products serving 50,000+ monthly users, cutting component rendering time by 20% and boosting mobile engagement by 18%.
